

# ABHISHEK CHAUDHARY

Data Analyst | Machine Learning

 abhishekchaudhary8275@gmail.com  7455918275  New Delhi-110017  LinkedIn  GitHub

## PROFESSIONAL PROFILE

Data Analyst and Machine Learning enthusiast with hands-on experience in Python, SQL, and Power BI for data analysis and visualization. Skilled in data cleaning, exploratory data analysis (EDA), feature engineering, and dashboard development to extract meaningful insights from datasets.

Completed practical training in data analytics, machine learning, and natural language processing. Experienced in working with real-world datasets through multiple projects, applying machine learning models and data visualization techniques to solve analytical problems.

## TECHNICAL SKILLS

**Programming:** Python, SQL.

**Data Analysis:** Data Cleaning, Data Transformation, Exploratory Data Analysis (EDA), Statistical Analysis.

**Python Libraries:** Pandas, NumPy, Matplotlib, Seaborn

**Data Visualization:** Power BI, Matplotlib, Seaborn

**Machine Learning:** Regression, Classification, Feature Engineering, Model Evaluation, Hyperparameter Tuning.

**NLP and Deep Learning::** Text Preprocessing, TF-IDF, ANN, CNN, RNN

**Tools:** Jupyter Notebook, VS Code, Git, Streamlit, Excel

## PROJECTS

### **HR Analytics Dashboard,** *Power BI*

- Built an HR analytics dashboard to analyze employee attrition, job satisfaction, and department performance.
- Visualized key HR metrics such as attrition rate, workforce distribution, and employee demographics.
- Provided insights to help understand employee retention patterns and workforce trends.

### **Netflix Data Analysis,** *Python*

- Performed exploratory data analysis on the Netflix dataset using Python libraries such as Pandas and Matplotlib.
- Analyzed trends in movies, TV shows, genres, and yearly content releases.
- Created visualizations to highlight content distribution and platform growth patterns.

### **Flight Fare Prediction,** *Machine Learning*

- Developed a regression model to predict airline ticket prices using historical flight data.
- Performed data preprocessing, feature engineering, and trained models including Linear Regression and Random Forest.

### **Telecom Customer Churn Prediction,** *Machine Learning*

- Built a classification model to predict customer churn using telecom usage data.
- Performed EDA, handled missing values, and applied machine learning algorithms to identify churn patterns.

## COURSE

### **Artificial Intelligence and Data Science Program,** *Madrid Software*

07/2025 – Present | Saket, Delhi

- Completed training in data analytics, machine learning, and natural language processing.
- Currently learning deep learning concepts including ANN, CNN, and RNN.
- Gained hands-on experience in real-world datasets, model building, and data analysis.
- Worked with tools such as Python, SQL, Power BI, Scikit-learn, TensorFlow, and Keras.

## EDUCATION

### **Master of Computer Applications (MCA)**

2022 – 2024 | Ghaziabad, U.P.

KIET Group of Institutions

### **Bachelor of Science (B.Sc - PCM)**

2019 – 2022 | Agra, U.P.

Dr. Bhim Rao Ambedkar University

## IBM - CERTIFICATES

Data Visualization Using Python  | Data Analysis Using Python  | Machine Learning with Python  |

Data Science Fundamentals  | Python for Data Science
